

## Settle Down

Flower Face

Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?

(Settle down, won't you take it easy on me?)  
Turn off the radio let's take the long way home

Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?

(Settle down, won't you take it easy on me?)  
Your heart of gold resides in the lines around your eyes  
(Settle down, won't you take it easy on me?)  
Our friends all moved away and left us behind  
(Settle down, won't you take it easy on me?)  
Baby, don't you turn away, I need you on my side  
(Settle down, won't you take it easy on me?)  
Settle down, don't you worry, it's alright

Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?

(Settle down, won't you take it easy on me?)  
I'd rather set myself on fire than watch you leave  
(Settle down, won't you take it easy on me?)  
'Cause when you walk away, I feel like I can't breathe  
(Settle down, won't you take it easy on me?)  
This feeling's bone deep and it aches like a cavity  
(Settle down, won't you take it easy on me?)  
Oh, I can't settle down when you're not with me

Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?

(Settle down, won't you take it easy on me?)  
Turn off the radio let's take the long way home

Settle down, won't you take it easy on me?  
Settle down, won't you take it easy on me?
