

Tell Me When It Hurts

Flower Face

I hate to see you hurt but I love to watch you cry
I want to make you squirm, I want to get you high
I like to watch you sleep, watch the light break through your eyes
I want to crawl into your skin like a poison parasite

Tell me if it hurts, tell me when it hurts
You won't love it anymore
Cause you only love me when you're bored
Tell me if it hurts, tell me when it hurts
You won't love it anymore and I'll always hate you when you go
So tell me if it hurts, tell me when it hurts

I want to make you smile, I want to push you around
I want to kiss you soft, I want to hold you down
I want to live inside your lungs, I want to feel you from inside
You know I'll never stop until your skin's all mine

Tell me if it hurts, tell me when it hurts
You won't love it anymore
Cause you only love me when you're bored
So tell me if it hurts, tell me when it hurts
You won't love it anymore and I'll always hate you when you go
So tell me if it hurts, tell me when it hurts

I want to hold your hand, I want to hold your throat
I want you marked with blood and broken bones
I want to eat at you the way it eats at me
I want you so bad that I can't breathe

So tell me if it hurts, tell me when it hurts
You won't love it anymore
Cause I only hurt you when I'm bored
So tell me if it hurts, tell me when it hurts
You won't love it anymore but you'll always love me when I'm gone
So tell me if it hurts, tell me when it hurts
