

## Epiphany

FLOYA

Won't you stop and take in the beauty of the wild?  
Let it take a hold of all your senses  
Drawn right into a symphony  
Of falling leaves in symmetry

Slow down, take a breath  
And let the energy flow all around you  
I've found a place for you and me  
A remedy for the hurt we've been through

Won't you fight your way out  
To find where you belong?  
You tried the lonely road before  
Defied the wolves outside your door

Slow down, take a breath  
And let the energy flow all around you  
I've found a place for you and me  
A remedy for the hurt we've been through

Watch the moon over your head  
Taking up just enough space, completing the portrait  
Let the stars speak, let the fire breathe  
A shadow's dancing right before your eyes  
Now won't you take my hand and tell me everything  
Every little detail you've been swallowing  
Don't you know that you're not alone in this  
The sun will rise for us again

Slow down, take a breath  
And let the energy flow all around you  
I've found a place for you and me  
A remedy for the hurt we've been through
