

# Lose It

Flume

Put away your inhibitions  
Let the beast in you just get loose  
We all young, wild and different  
We could all get lit from a lil goose  
I know you're terrified by what the future lies  
But there's no compromising, it's my way or the highway  
We all just played the lust, hard building breaking trust  
She gon' get wowed when we come out  
Like she gon' get loud when the weed come out this instant  
Give a fuck what your friends think  
Tell their boosie ass go wait in line  
With them lame niggas talking real rap  
Tell 'em break your neck go and bust a rhyme

Blow one down, pass it around, aye  
Fuck with me now, we're running wild, aye  
Nobody game, we own the town, aye  
Never come down, I'll never come down

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

Everybody got guilty pleasures  
Mine just turned to catch me cases  
Handcuffs, police inspections  
Lawyers, judges, allegations  
Turn on your favorite station  
You hear the same old song  
I feel like Nagasaki, dog  
I'm 'bout to drop the bomb

Blow one down, pass it around, aye  
Fuck with me now, we're running wild, aye  
Nobody game, we own the town, aye  
Never come down, I'll never come down

Blow one down, pass it around, aye  
Fuck with me now, we're running wild, aye  
Nobody game, we own the town, aye  
Never come down, I'll never come down

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

I might  
Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it

Lose it, lose it, lose it  
I might  
Lose it, lose it, lose it
