

Over You

Flume

When we met you said you felt again
You told me we could never just be friends

When we met you said you felt again
You told me we could never just be friends
But I didn't need you back then
And now I'm begging you to stay
Because I don't know how to breathe without you
I'm saying that
I'm saying that I

Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world

We don't know how to say goodbye
Without you, I can't sleep at night
Kiss me, wipe the tears from my eyes
I'm saying that
I'm saying that I need you, promising I won't leave you
Tell me you still need me too
And tell me I'm your girl, tell me I'm your world
Kiss me, hold me, take me, baby
Just don't let me go or give up, give up

Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world
Tell me I'm your girl, tell me I'm your world
