

## Down

Flunk

I've been running, I've been having fun  
But I don't know what it means  
I've been trying, I've been dying to  
But I don't know what it means

I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means

I rest my case, but I don't wanna run the race  
I've been loosing you the way I'm loving you  
But I don't know what it means

I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means

I've been trying so hard to come to peace  
But I don't know what it means  
My shelter is a shield  
But I don't know what it means

I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means  
I've been down, down, down, down, down  
But I don't know what it means

I've been trying so hard to be myself  
That I've turned into somebody else  
I'm in denial or so it seems  
But I don't know what it means
