

# Everything Is Ending Here

Flunk

Everything is ending here  
After all I have no more to say  
And everything is ending here  
And after all I have no more to say

I am sick and tired of words  
I've been using them for all these years  
Every word I try to say  
Seem to end in tears

I am sick and tired of words  
I've been using them for all these years  
Every word I try to say  
Seem to end in tears  
Seem to end in tears  
Seem to end in tears

Everything is ending here  
After all I have no more to say  
Everything is ending here  
After all I have no more to say

After all I have no more to say  
To you
