

## Feels Good

## Flux Pavilion

Falling up against the wall  
Smoke in our eyes  
We don't feel the noise  
We don't see the lights  
We just ride this wave that we're inside

Watching as our shadows fall  
Closing our eyes  
When we dream like this  
When we burn so bright  
There's no turning back from it this time

When it feels this good  
When it feels this good  
It blows my mind  
Blows my mind  
Blows my mind  
Blows my mind

When it feels this good  
When it feels this good  
It blows my mind  
Blows my mind  
Blows my mind  
Blows my mind

Colours coming through the dark  
Then flipping away  
We don't count no time  
We don't leave no trace  
We keep drinking right till this dawn breaks

Watching as the sunlight falls  
Over our eyes  
When we dream like this  
When we burn so bright  
Feels that like we could set the air on fire

When it feels this good  
It blows my mind  
Blows my mind  
Blows my mind  
Blows my mind

Don't surrender

I've never felt so alive  
Hold me till I can't take no more  
Hold me till I can't take no more

When it feels this good  
When it feels this good  
It blows my mind  
Blows my mind  
Blows my mind  
Blows my mind

When it feels this good  
When it feels this good  
It blows my mind  
Blows my mind  
Blows my mind  
Blows my mind

When it feels this good  
When it feels this good  
It blows my mind
