

International Anthem

Flux Pavilion

We a turn up the temperature
We a turn up the fire blaze
We a turn up the pressure gauge
And we a turn up the heavy bass

Gunshot, bang bang
DJ kick it like Van Damme
Pull it up, rudeboy
Me say fi pull it up, rude boy

Oh my god, this sound is so bad
We're feeling the vibes, everybody go mad
Everybody put up all your hands in the air
Sing this international, international
This international anthem

Sing this international, international anthem
Sing this international, international anthem
