

Say it to my face if you wanna help me grow
Give it to me straight if you wanna let me know
Tell it like it is, wear your heart on your sleeve
Passively aggressive, silently upheaved

I have to fail to succeed
I have to fall to take the lead
I have to question all I know
I have to suffocate to grow
I have to give so I can take
I have to sleep to stay awake
I have to dethrone to be crowned
I have to get lost to be found

What if you survived all this time
To be kept alive, to be a saviour?
Something greater?
What if you survived all this time
To be kept alive, to be a saviour?
Be a saviour
To be a saviour

Underneath the stars
Transforming who we are
Free the sea of love
Orion in our hearts
Be a saviour

Manifesting visions of harmony
Recognise the mission of our destiny
Single notes playing together in divine symphony
Creating a dream of perfect melody

What if you survived all this time
To be kept alive, to be a saviour?
Something greater?
What if you survived all this time
To be kept alive, to be a saviour?
Be a saviour
To be a saviour

Underneath the stars
Transforming who we are
Free the sea of love
Orion in our hearts
Be a saviour
Be a saviour
Be a saviour
Be a saviour
Be a saviour
Be a saviour
Be a saviour
Be a saviour

Be a saviour
Be a saviour
Be a saviour

Be a saviour
