Surrender

Flux Pavilion

We've been at war with each other
Because we like how it hurts
We blew each other to pieces
Let's try to glue them with words

Maybe I've got too much pride
You know that you can wind me up
And I can be a dick sometimes
But we can work it out

Don't wanna hurt no more, I surrender
I'm gonna lay my guns down forever
Don't wanna wait til we're not together
Just wanna love you

Don't wanna hurt no more, I surrender
I'm gonna lay my guns down forever
Don't wanna wait til we're not together
Just wanna love you

I surrender
I surrender

I don't know who got it started
I don't know who fired first
I surrender
I guess it don't even matter
Just tired of makin' it worse

Maybe I've got too much pride
You know that you can wind me up
And I can be a dick sometimes
But we can work it out

Don't wanna hurt no more, I surrender
I'm gonna lay my guns down forever
Don't wanna wait til we're not together
Just wanna love you
(Just wanna love you)

I surrender
I surrender

We're slammin doors and we're screaming
I don't know if we can stop
I can't remember the reason
That took us over the top

Don't wanna hurt no more, I surrender
I'm gonna lay my guns down forever
Don't wanna wait til we're not together
Just wanna love you

Don't wanna hurt no more, I surrender
I'm gonna lay my guns down forever
Don't wanna wait til we're not together
Just wanna love you

I surrender
I surrender
I surrender
I surrender
I surrender
