

Be Right There

Fly By Midnight

Waking up feeling upside down
Like a queen but ya got no crown
Yeah it's cloudy on a Saturday oh I
Wanna know what's on your mind
Tell me why your sun don't shine yeah
Just slow it down and say to me

You need someone to lean on
And turn the grey to neon
It's cold let's turn the heat on tonight

Why don't me and you
Take some blue
Throw it at the sky
Life is short but sweet
Fuck a piece
Take the whole damn pie
If you call I'm comin'
Late night or mornin'
Imma be right there
Be right there
Every time

Why don't me and you
Take some blue
Throw it at the sky
Life is short but sweet
Fuck a piece
Take the whole damn pie
If you call I'm comin'
Late night or mornin'
Imma be right there
Be right there
Every time

Wanna take all the pain (That's weighing on you)
We could strip it away (Like clothes come off you)
Yeah it's been awhile, you're overdue so look
To your left to your right (Tell me what you see)
Like the Bill Withers line (You can lean on me, lean on me)
Just turn it up and sing to me

You need someone to lean on
And turn the grey to neon
It's cold let's turn the heat on tonight

Why don't me and you
Take some blue
Throw it at the sky
Life is short but sweet
Fuck a piece
Take the whole damn pie
If you call I'm comin'
Late night or mornin'
Imma be right there
Be right there
Every time

Why don't me and you
Take some blue
Throw it at the sky
Life is short but sweet
Fuck a piece
Take the whole damn pie
If you call I'm comin'
Late night or mornin'
Imma be right there
Be right there
Every time

What's up, what's on your mind?
I know it's hard sometimes
If it helps just a little
I could stay for a little while
You been been on my mind
I know it's hard sometimes
If it helps just a little
I could stay for a little while
