

## Dance

## Fly By Midnight

She likes to dance  
Dance around her feelings  
Damn I can't believe it's like that

Electric lady  
She keeps me  
Bitter baby  
I can't figure out  
No I can't figure out  
Why she

Wants to play me  
Feel like a ukulele  
I get the runaround  
I swear she got me got me running round

Everywhere, I try to take her everywhere  
No I can't win she's solitaire  
There's nothing left to do  
I hate to lose

She likes to dance  
Dance around her feelings  
Damn I can't believe it's like that  
I've got no chance  
Dancing with the devil  
Takes my heart to hell and right back

I'm like  
Oooo  
Oooo  
Caught up in a sad romance

She takes my hand  
No I can't stand  
When all she wants to do is dance

Cut the music  
She keeps it moving  
Got all this energy  
But it ain't taking me, taking me  
Anywhere

I leave her daisies by the stairs  
I shine my shoes and comb my hair  
There's nothing left to do  
I hate to lose

She likes to dance  
Dance around her feelings  
Damn I can't believe it's like that  
I've got no chance  
Dancing with the devil  
Takes my heart to hell and right back

I'm like  
Oooo

Oooo  
Caught up in a sad romance

She takes my hand  
No I can't stand  
When all she wants to do is dance

Knock me out  
And make this easy  
Or come sit down  
Just please don't leave me

I said  
Knock me out  
Make this easy  
Just take it easy on me babe

She likes to dance  
Dance around her feelings  
Damn I can't believe it's like that  
I've got no chance  
Dancing with the a devil  
Takes my heart to hell and right back

I'm like  
Oooo  
Oooo  
Caught up in a sad romance

She takes my hand  
No I can't stand  
When all she wants to do is dance

No I can't stand  
When all she wants to do is dance
