

Heart

Fly By Midnight

I can hear your heart
Clothes off by the nightstand
Tuesday on the duvet
Dive bar city drinks up all night
First time, baby, that felt this right
Red light through the lamp shade
No limit, no face to face
Rolling with you like ecstasy
Never met a girl, take the (uh, uh) for me
Ooh, closing the blinds, closing your eyes
Ooh, you break through the silence

I can hear your heart when we turn the lights off
I can hear your heart, heart
It's talking to me like

Loud and clear, now I want more
Rub burns from the car before
Staring up at the chandelier
Tryna figure out how I landed here
Ooh, I'm proud of my mind, I'm playing with fire
Ooh, and you burn through the silence

I can hear your heart when we turn the lights off
I can hear your heart, heart
It's talking to me like
I can hear your heart, all the crushing echoes
I can hear your heart, heart
It's talking to me like
