

# Nothing New

Fly By Midnight

I've been here before in the worst way  
A feeling that's inevitable  
Tryna fix it all like a band-aid  
Only covers up the letting you go  
So I

Buy some time, it's on my dime  
'Til I'm broken (Ohh)  
Off my mind then you remind me  
I'm hopeless again

It's nothing new  
No tongue so what's there to say now?  
Been gone for days now  
It's nothing new  
Eight nights of waking up face down  
Can't find a way out  
It's nothing new

It's true  
Been tryna get through getting over you  
It's cool  
Fucking me up is what you do  
It's nothing new, ahh

And every week is like a u-turn  
Keep running back 'cause the past is on my mind  
It's no surprise the way my eyes burn  
Looking at you tryna prove my worth  
Just to

Buy some time, it's on my dime  
'Til I'm broken (Ohh)  
Off my mind then you remind me  
I'm hopeless again

It's nothing new  
No tongue so what's there to say now?  
Been gone for days now  
It's nothing new  
Eight nights of waking up face down  
Can't find a way out  
It's nothing new

It's true  
Been tryna get through getting over you  
It's cool  
Fucking me up is what you do  
It's nothing new, ahh  
Ohh, ohh  
Ohh, ohh  
(It's nothing new)  
Ohh, ohh  
Ohh, ohh

No tongue so what's there to say now?  
Been gone for days now

It's nothing new  
Eight nights of waking up face down  
Can't find a way out  
It's nothing new

It's true  
Been tryna get through getting over you  
It's cool  
Fucking me up is what you do  
It's nothing new, ahh
