

## SuperFine

## Fly By Midnight

I just wanna be  
Okay  
All right  
All day  
All night  
Superfine

I just wanna feel  
That way  
That light  
One hit  
Take flight  
Superfine

I just wanna take a ride  
Oh why  
Okay  
All right  
All day  
All night  
Superfine

And It hits like a fever  
Yeah it starts in your bones

And I can't help but feeling  
Like I need you to know

My tendency is latency  
I wait around for bad luck  
I think it's time I 86 and go

I just wanna be  
Okay  
All right  
All day  
All night  
Superfine

I just wanna feel  
That way  
That light  
One hit  
Take flight  
Superfine

I just wanna take a ride  
Oh why  
Okay  
All right  
All day  
All night  
Superfine

And I'm running a wire  
With an atlas pose

So close to the fire  
But I'm too cold to know

My sanity is begging me  
Don't wait around for bad luck  
I think it's time I 86 and go

I just wanna be  
Okay  
All right  
All day  
All night  
Superfine

I just wanna feel  
That way  
That light  
One hit  
Take flight  
Superfine

I just wanna take a ride  
Oh why  
Okay  
All right  
All day  
All night  
Superfine

A ride  
Oh why  
Okay  
All right  
All day  
All night  
Superfine
