

Tragedy

Fly By Midnight

I know
There's something fucked about my DNA
That makes me sabotage the things I want and
Maybe
That's why the second that my dopamine runs out
I panic and I get to running

(Ooh)
You might be the miracle I need
(Ooh)
But you don't know me
Cause

Every time it starts I'm sold
I tell myself I can't turn cold
Like maybe we could both grow old together
Go wherever
But take it from me
If you fall for me
I'd try to
Love you more than ones I lied to
But looking at us standing here together
You'll hurt forever
If you fall for me
That would be a tragedy

Right now
You're over heels about the way I hold you
Cause nobody's told you you're their only choice
Right now
I'm thinking bout when you look back
You'll figure out that all the perfect words
I said were noise

(Ooh)
You might be the miracle I need
(Ooh)
But you don't know me
Cause

Every time it starts I'm sold
I tell myself I can't turn cold
Like maybe we could both grow old together
Go wherever
But take it from me
If you fall for me
I'd try to
Love you more than ones I lied to
But looking at us standing here together
You'll hurt forever
If you fall for me
That would be a tragedy

Love me blind
And never leave
Take your mind
And change it if you

Want to I
Won't make a sound
I'll wait it out
And watch as you

Love me blind
And never leave
Take your mind
And change it if you
Want to I
Won't make a sound
I'll wait it out
