

## Sea Of Love

## Fly to the Sky

Always tears fall in my dreams  
And the icy cold wind is blowing  
How come waiting for you feels like the end of my life?  
For some days, for some years  
You probably won't be the same  
Can I see you once more?

For the moon, by the sea  
You leave the seashore  
Until all the tears are dry (Until they're all dry)  
Love will still be waiting I won't know why (I won't know why)  
Now I'll go back to you  
You won't know when there is a world without you  
Still there is time for me to be whole  
Meet me...

From the bottom of my heart  
Girl with you, I'll be true  
It is all lies (Lies!)  
My heart is eaten up (My heart is eaten up)  
He'll not forget how he will die for you

For the moon, by the sea  
You leave the seashore  
Until all the tears are dry (Until they're all dry)  
Love will still be waiting I won't know why (I won't know why)  
Now I'll go back to you  
You won't know when there is a world without you  
Still there is time for me to be whole  
Meet me...

I still wanna live as I forget you  
But that won't happen and only more pain will come  
Your love has just finished, but..  
My love has only just begun

From the bottom of my heart  
Still I'm falling in love  
You are in my dreams (From my dreams)  
Come back and give me a Kiss (If you give me a Kiss)  
Even if I didn't promise you  
I'll be waiting everyday

For the moon, by the sea  
You leave the seashore  
Until all the tears are dry (Until they're all dry)  
Love will still be waiting I won't know why (I won't know why)  
Now I'll go back to you  
You won't know when there is a world without you  
Still there is time for me to be whole  
Meet me...

Whenever a tear falls from your eyes  
Then I'll dry your tears and make them mine  
Please come back to me (Why won't I know?)

For the moon, by the sea

You leave the seashore  
Until all the tears are dry (Until they're all dry)  
Love will still be waiting I won't know why (I won't know why)  
Now I'll go back to you  
You won't know when there is a world without you  
Still there is time for me to be whole  
Meet me...  
(2x)

In my dreams the tears have stopped....
