Flying Colors

Give myself away
Freely dis-associate
Climb up mountains of sand
There to find there's holes in my hands
I dream the day
In nights in the fray

Dawn comes gripping tight
Bathed in secret delights
I dream the day
In nights in the fray

I fade away
Into my passion
Nights in the fray
Forever asking...
More

I wish you lied to me
Anything but this reality
Still life of clay
From nights in the fray

I fade away
Into my passion
Nights in the fray
Forever asking...
More

Poised on a hill
Will you die from your suffering?
You were born into lies
Deep as rain
There's a kiss
Undespised
And your love is a wish
Let it fly while we swim
In the dark

[PreChorus]
I dream the day
In nights in the fray

[Chorus]
I fade away
Into my passion
Nights in the fray
Forever asking...
