

## Phantasm

Flying Lotus

You made it very clear  
Clear as a ghost  
Completely disappear  
Fix it in post

Can you take the fantasies?  
No matter the cost?  
Increase the transparency  
Total data loss

The memory grows dim  
Of wanting sensation  
You tried a phantom limb  
Hallucination

I know that you are there  
I see you on my sleeve  
An internal error  
Ghost in the machine

All that we feel  
Is virtually real  
What will survive...  
In real life, in real life?
