God We Were Laughing

Flying Pickets

I found and you lost me
Across the sea…and ragin' foam
And I saw you and you saw me
Through the smoke…of a crowded room

And God we were laughin'
Right down to the sea
And God we were laughin'
Laughin' you and me

And I lost you and you found me
Across the mountains…and the clear blue skies
And I saw you and you saw me
In one glance…of a stranger's eyes

And God we were laughin'
Right down to the sea
Yes God we were laughin'
Laughin' you and me

So put it down (put it down) and watch the leaves
And they're fallin' all around
So put it down (put it down)
Let the seeds touch the ground

And God we were laughin'
Right down to the sea
And God we were laughin'
Laughin' you and me

So I found you and you found me
And I saw you and you saw me
But I lost you and you lost me
But God we were laughin'
