

# Alabaster

Flyte

Alabaster  
Are you coming around after?  
We could light a candle  
We could help it untangle  
Won't you hold me, Alabaster? 'Cause I'm caught in a trap  
I'm alone and the power's out  
Home and she's not around  
And we can fix it after  
But the answer is

I know it's the wrong way to want you  
But we're already here  
And it's happening  
The wounds are unfastening  
It's a natural disaster  
Alabaster

Round the corner  
We can call from the car  
I am losing my appetite  
And I'm so tired  
We're on a faultline  
Half this city's on fire  
Maybe just one last time  
Maybe just one last time  
Maybe just one last time

(I know it's the wrong way to want you)  
'Cause we're already here  
And it's happening  
The wounds are unfastening  
It's a natural disaster  
Alabaster

We can fix it after  
(It's a natural disaster)  
We can fix it after  
(Won't you hold me, Alabaster?)  
We can fix it after
