

## Press Play

Flyte

Let's both press play together  
You take off work  
My four wheel driving twenty questions  
Catch the cats eyes

Not met your friends before  
But I hope they don't change us

In my Mk1  
Singing 'Black Hole Sun'  
And I'm almost home  
I'm already there

Forever maybe never  
I'm good for any weather  
Those crayon blackbirds on the pavement  
I'm on your street

Not met your family  
But I hope that they get me

In my Mk1  
Singing 'Lithium'  
And I'm almost home  
I'm already there  
I'm already there

Let's both press play together
