

You glow on VHS
You glow on
My love for VHS will go on
I missed my VCR for so long
We used to play and play but no more

They left me
Left me with no options
They made me
Made me swiss (?) the systems

I missed my VCR for so long
We used to play and play but no more
They left me
Left me with no options
They made me
Made me swiss (?) the systems

You glow on VHS
You glow on
Your zero's blinking bright in the dark
I lie and wake and stare in the night
Left me with no options
Left me with no options
