

## I'm Done With the World (& It's Done With Me)

Foals

The fox is dead in the garden  
The hedges are on fire in the country lanes  
And all I wanna do is get out of the rain  
An autumn day, an autumn day

My daughter's asleep in the garden  
The leaves are on fire in the country lanes  
And all I wanna do is get out in the rain  
An autumn day, an autumn day

I'm done with the world  
And it's done with me  
All I wanna do is get up and leave  
Sun falls into the garden  
I'm on my knees...
