

# One

## Foals

I wanna know your name.  
You just kill me, could you at least do that?  
I wanna know your name  
Or better yet stay there,  
Just do that.

I wanna know your name.  
You just kill me, could you at least do that?  
I wanna know your name  
Or better yet stay there,  
Just do that.

I wanna know your name.  
You just kill me, could you at least do that?  
I wanna know your name  
Or better yet stay there,  
Just do that.

I wanna know your name.  
You just kill me, could you at least do that?  
I wanna know your name  
Or better yet stay there,  
Just do that.

Know your name...
