Under the Radar

Foals

Sky valley white
You read my mind

We exist alone when we're on our phones in the night
Running through your mind where you are now
I exist alone, when I'm on my phone in the night
Turning through my mind where you are now

In the dark of the night
A flicker of a sight
Comes the sky valley rider
Oh oblivion, not here nor there
Oh oblivion, you're here nor there
I wanna know, how do you go all the way up
You're not alone, a UFO under the radar
Under the radar

Under the radar
Under the radar

Sky valley white
You read my mind

Oh, her mind is on the run
A badly loaded gun to extinguish all she comes across
And now she knows to fly away
And now we know the sky's the way
I wanna know, how do you go all the way up
You're not alone, a UFO under the radar
Under the radar

Under the radar
Under the radar

In the dead white mist of the cool hour
A shoulder's of God, a meteor shower

We exist alone when we're on our phones in the night
Turning through your minds where you are now
I exist alone when I'm on my phone in the night
Running through my mind where you are now

Sky valley white
You read my mind
Sky valley white
You read my mind
