Wild Green

Foals

Spring is on its way now, lilac April rain
Mayfly spreads its wings at the end of a day
Let me fold myself in the corner of a day
Never leave, never leave, let me stay

Spring is on its way
Lilac April grey

Let me lay my head down, let me while away
Holding back the hours, I'll keep them all at bay
Let me fold myself in the corner of a day
Before the rain comes and washes us away

Spring is on its way
Lilac April grey

Wild green (Wild green)
Love, love
Wild green, green
Love, wild green
Love, wild green

Spring is on its way
Lilac April grey
Spring is on its way
Lilac April grey
Let me live a day

I need your love, I need your love
I need your love, I need your love
I need your love, I need your love
I need your love, I need your love
I need your love, I need your love
I need your love, I need your love
I need your love, I need your love
I need your love, I need your love

I need you in my life, I need you in my life
I need you in my life, I need you in my life
I need you in my life, I need you in my life
I need you in my life, I need you in my life

And all that's left to say now is goodbye
Life is just an outline in the sky
All the streets are empty tonight
And all that's left to say now is goodbye
Life is just an outline in the sky
The tyre marks that you leave in my mind
All the streets are empty tonight
The thing I never mentioned was love
The thing I never mentioned was love
