March us toward Persephone  
Fill our poor souls with hope  
For the good of many we will not  
Falter or be vilified  
As we storm toward a new day  
Messengers to infinity  
Social Security number  
The foundation telegraphs in the process  
Ceteris paribus  
Deo gratias  
Esto perpetua  
Cetera desunt  
Lux et veritas  
Lapsus alumni  
Manus in mano  
Multum in parvo  
Then shall we all be released  
And as our numbers increase  
Soon shall we all be deceased  
Soon shall we all be released  
Energy  
Purity  
Sanctity  
Charity  
Chastity  
Humanity  
The universal law  
The chosen sacrifice  
Glorious release  
Know eternal youth  
Open all your holes  
Hosannah on high  
He is the beginning of "heathen"  
Contact  
Throwback  
Throwback  
We're not to blame  
Fire of the brain  
Living a lie  
Glorious release  
We're not to blame  
Conquer your shame  
Fire up the flame  
Glorious release  
We're not to blame  
Glorious exaltation  
Earthly degradation  
We have come to praise you  
We have come to raise you  
We have come to save you  
The circle, the circle  
We must now defend you  
We must now amend you  
We must now apend you  
The circle  
Energy  
Purity

Sanctity  
Charity  
We must build walls and dig trenches  
Fortify the boundary fences  
He!  
He is the beginning of heathen  
Her!  
Her is the start of heresy  
Singularity upon us  
Man, fish and fowl  
We are to blame!  
As you are judged  
So you must pay  
We are to blame!  
We are to blame!  
Lightning strikes twice  
We are to blame!
