

## Free James Brown

Foetus

29 years is a long long time to be in this prison when there aint no crime  
Well every move's a betrayal every move's your loss but i can never get the  
last nail outa the cross  
Befuddled by life and alone in death  
my dearest companion is crystal meth  
dinosaurs callin me back in time  
i said i wanna get back to the primordial slime  
Free james brown  
free james brown  
free james brown so he can run me down

i wanna die with my hands around a black man's throat  
i said i wanna die with my hands around the right man's throat  
Free james brown  
free james brown  
free james brown so he can run me down  
I wanna get into it man {baby dont make me beg, now}  
like a like a sex machine  
they call me mr please please please  
{dont let me break down, darlin}  
movin, groovin, doin it, y'know

i wanna die with my hands around a white man  
i wanna die with my hands around a white man  
i wanna die with my hands around a black man  
i wanna die with my hands around the right man  
Everybody's ass is up for grabs  
well now your mom threw away your best porno mags  
well everybody's busy kissin corporate ass  
the odor you detect may be poisonous gas  
i got an itch i cant scratch  
i call a nail a nail  
and this shitty place is goin to  
hell hell hell hell hell hell hell  
I wanna die with my hands around a white man's throat  
i said i wanna die with my hands around the right man's throat  
Free james brown so he can run me down
