

# Hammer Falls

Foetus

When I throw you out of my speeding truck  
I'll give you a soft shoulder to cry on  
Gasoline roar - four on the floor  
Airbags to give you a little something to die on

(Refrain:)

Sorry I'm not one in a million  
Hafta make do til it wears out  
I happen to have an opinion  
Got a lot but it's all in escrow  
Fill your own void - I'm empty  
Thru with charades and empty shells  
Empty skills housed in haircuts  
Couldn't even clean sink to save yourself

Fill in the blanks  
Don't return my calls  
I dread what may be an intimacy  
And the hammer falls  
THE HAMMER FALLS

Fill your own void - I'm empty  
Thru with charades and empty shells  
Full of fibrosis  
An inadequate diagnosis  
For the creakin cold arthritis

Lumberin lumbago  
And the heartbrake of psoriasis  
(Thank you, Dr. Zizmor!)

(Refreain)

Fill the blanks  
They won't return my calls  
Keep it to yourself  
In the BACK of the shelf  
And the hammer falls  
THE HAMMER FALLS  
The lousy guilt backfires on me  
Wish it was easy  
Been all I can be  
But the hammer falls  
The hammer falls - THE HAMMER FALLS

I admit it ain't much - but you better get used to it  
It ain't a pretty sight but it's all I got  
I'm me - not free  
Sittin round watchin that hammer fall

I'm one in a million  
I got a opinion  
And the hammer falls  
The hammer falls

Stay free - I wish it was easy  
It backfires on me - and the hammer falls

You be you - you ain't me  
I may not be free - but stop manacling me

Been all I can be  
And watchin the hammer fall

I'm one in a million  
I got an opinion  
And the hammer falls  
The hammer falls

The warranty ran out a long time ago  
And the hammer falls

Been all I can be  
And the hammer falls
