

## Here Comes the Rain

Foetus

Here comes the rain  
The dry spell lasted for years  
The land so brown  
Omega point now  
But you can't feel it like I do  
Those damn mosquitos stick like glue  
Here comes the rain  
The dry spell lasted for years  
The land so brown  
Omega point now  
But you can't feel it like I do  
Those damn torpedoes stick like glue  
Here comes the rain  
Here comes the rain
