

# Jitterbug

Fog Lake

Served my sentence with you  
Coming down coming through  
The doors of our old high school  
I bit off a bit too much to chew  
What a weight off your mind  
Once you know it's already over

My patience got me nowhere  
Looking down looking for better days gone on by  
This town lights up for nobody at night  
Call me back call me in  
Don't let me go out alone

We got nothing to compensate  
I was tamed by the toll  
We're just going through the motions now  
Light it up Jitterbug  
I'm already overwhelmed  
Don't change my mind

This feeling got it coming for me  
Laying still dressed to kill  
Blood dripping down from the bedroom walls  
Write it out write it in your storybook hell  
I'll keep my eye on you

We made a big mistake  
Ride it out ride it in those  
Backseats with the windows down  
I don't mind if you win  
Just tell me what to call this house  
That's caved into itself

We got nothing to compensate  
I was tamed by the tone  
We're just going through the motions now  
Light it up Jitterbug  
I'm already overwhelmed  
Don't change my mind  
Don't change your mind on me  
Don't change your mind
