Spectrogram

Fog Lake

I know I'm in over my head
I know I'm in debt to this
Never ending spectrogram
The city slick fixed me in quick
Chewed up and spit
I never meant to let this happen
I never meant

I wanna change
I'll find a way
A beautiful way
To watch it die
Look in my eyes
Tell me why you lied

To take my place, no one to blame
But that's okay, it's not the same
An empty page
Now it's too late
