

Hitting A Wall

Fog

hitting a wall blood in the mouth (coffee violence), some days
it's like it's flattened.
picking of teeth with toenails, eyeballs locked into position.
I want to take a nap, i want to watch tv.
I want to sit and stare and stare and stare and think of elsewh
ere.
hitting a wall some days it's like it's flattened.
picking your teeth with toenails, eyeballs locked into position
.
