Hit the Ground Running

Foghat

I'm ready, my suitcase is packed
I got my love and my life on my back
We'll meet the boys, the bus is outside
We'll hit the road, got to go for a ride

It makes me crazy – I like me crazy
I'm gonna leave all my worries behind
And put the real world out of my mind

I'm gonna hit the ground running
That's what I do to survive
And when I hit the ground running
I'll play my guitar and fly

I'm jamming on from town to town
Ain't got no time for things bringing me down
This lonely road, no sign of an end
Ain't seen my woman since I don't know when

It makes me crazy – I like me crazy
But when it comes down to push and shove
I tell myself it's a labor of love

I'm gonna hit the ground running
That's what I do to survive
I'm gonna hit the ground running
Play my guitar and fly

{instrumental}

We're finally home, the end of the line
I grab my suitcase and I'm waving good-bye
Just sitting 'round time on my hands
Waiting for my next one night stand..Yeah

And then I hit the ground running
That's what I do to survive
Ya know I hit the ground running
Play my guitar and fly

I'm gonna hit the ground running
That's what I do to survive
I'm gonna hit the ground running
Play my guitar and fly
