

Honey Do List

Foghat

9am I got the note you left me
All the things you wanted me to do
Honey, take out the trash, honey, cut the grass
Go to the store and pick up a thing or two
Well, now here's a kiss on your, honey do list
I got me a list just for you

Honey, kiss me twice in the morning
Honey, rub my back every night
Honey, like you mean it like I've never known
Honey, make me feel alright

Honey do list, honey do that
Honey do this and do it just like that
Do it just like that

Twelve o'clock I finally got the groceries
Checked off all the other stuff too
Got rid of all the trash and then I cut the grass
And now you know just what I need from you
Tell me, baby
Oh, now here's another kiss my honey do list
The list I've been working on for you

Honey meet me just inside the doorway
Wearing nothing but those shoes and a smile
Honey, we got all night and I know what you like
Let's knock the numbers off the [?]

Honey do list, honey do that
Honey do this and do it just like that
Do it just like that
Guitar!

Honey do list, honey do that
Honey do this and do it just like that
Do it just like that

2am lying here beside you
Satisfied smile on my face
Better be
Cause we both got our list
We both know that we've been kissed
We put everything back into place
And now here's another kiss
Let's make another list
With most of that you can do

Honey, put your head on my shoulder
Do that thing you did for me last night
Again, baby
Honey, now you're showing
Like I've never known it
Honey, kiss me hard and hold me tight

Honey do list, honey do that
Honey do this and do it just like that

Do it just like that
Honey do list, honey do that
Honey do this and do it just like that
Do it just like that
