

She's a Little Bit of Everything

Foghat

Smart on the inside, a beauty to see
Tells it like it is, she keeps a mystery
She's got it all, she's dragging me in
She's a little bit of everything

Sweet as an angel, little devil too
Hard as a brick, soft as the dew
She ain't too fat, she ain't too thin
She's a little bit of everything

Rip the rich crowd and a high class bash
In the corner bar talking trash
When she's with me, it's a win-win
She's a little bit of everything

Pearls and diamonds, old blue jeans
She's got blue eyes that turn to green
She's got it all, she's dragging me in
She's a little bit of everything
When she's with me, it's a win-win
She's a little bit of everything
She's got it all, she's dragging me
She's a little bit of everything
