

I Remember

Foje

I remember my childhood witch comes back to me
I remember thats funny incredible days
I remember I have a couple things to believe
I remember I trusted what people say

What did I really forget
Can't remember quite dry

I remember my schoolyears, my very first kiss
When I took guitar, when I broke my first string
I remember my girlfriend who I really miss
I remember that day when I started to sing

I'll never forger those people I've met
I'll never forget those countries I've saw
I'll never forget that we worried they said
I remember where I was five minutes ago
