

Ruler of the ether  
Flame of the firmament:  
Bearing the insignia  
Of the black sun and moon...

Hannebu, wonder of the ancients  
A secret 'ere Atlantis sank  
Now doth rise again from the deep  
To sow death and terror from above!

Hannebu pilot, a warrior in the sky:  
Soaring over land, sea and the clouds -  
Do or die! Warrior in the sky!  
Hannebu rising - a lightning flash in the deepest night!

The craft of the Gods  
Chariot of the Old Ones -  
Now fallen into the hands  
Of the Black Order...

Turbines rend the air  
Vulcan fire, a deafening scream  
A rotating Iron Cross:  
Thy fate is sealed when they take to the wing!

Hannebu pilot, a warrior in the sky:  
Soaring over land, sea and the clouds -  
Do or die! Warrior in the sky!  
Hannebu rising - a lightning flash in the deepest night!

No hope of victory  
Against the weapon of the foe -  
The fleet of Hannebu  
Will soon swarm Europe...

Darting through the dark  
Glimmering daggers  
Ran through the stars:  
A promise of death  
As legions below  
Hail the victory  
Of the Black Sun  
And the rising Hannebu...
