

The Celestial Giants

Folkodia

The ancient tablets of Babylon
Recall the coming of the Gods
Down to earth in splendor untold
On winged chariots made of gold...

The great Gods of royal blood
Keepers of the universe -
Three hundred on the Earth
Three hundred in the sky...

The Anunnaki descend on the Earth
To bring to men wisdom and law -
They are the kings from the starry dome
The celestial giants of legends old!

Anointed by Marduk's hand
To reign over us mortals frail
And bring us forth from the caves -
Under the sun to rejoice and sing!

Celestial giants on chariots of fire
Are coming down on our primitive Earth:
They bring with them such wondrous gifts
The secrets of the cosmic spheres...

The Anunnaki descend on the Earth
To bring to men wisdom and law -
They are the kings from the starry dome
The celestial giants of legends old!
