

# A Mind's Escape

[Follow The Cipher](#)

Are we asleep  
Fading from reality  
Deep in our dreams  
Bittersweet memories

But nothing really matters like it used to before  
It's too late, there is nothing we can do to avoid  
Our secret escape

So let's go high above  
Where there's no rain in sight  
Where all the stars shine bright  
And night becomes our light  
High above  
Where love will reunite  
If we ignite our flight  
And hold on tight

Is this for real  
So blinded by our greed  
How could this be

So cold I feel  
All these thoughts I'm thinking  
I cry, I scream  
Nothing helps me

'Cause nothing really matters like it used to before  
It's too late, there is nothing we can do to avoid  
Our secret escape (our secret escape)

So let's go high above  
Where there's no rain in sight  
Where all the stars shine bright  
And night becomes our light  
High above  
Where love will reunite  
If we ignite our flight  
And hold on tight

There is no other solution  
This is not a fairytale  
What's left, a world of pollution  
And we run away to our secret escape

High above  
Where there's no rain in sight  
Where all the stars shine bright  
And night becomes our light

Where there's no rain in sight  
Where all the stars shine bright  
And night becomes our light  
High above  
Where love will reunite  
If we ignite our flight  
And hold on

Hold on tight
