

I Revive

Follow The Cipher

I see it happen everywhere
When people lose their dream
A doubt of fear and disbelief
I see it all the time

But I will rise above the skies
And show them who we are
Behind the focus of the weak
We're strongest of them all

You will think I will go down
I will know answer till I die

'Cause I revive, I revive
It takes a toll on me whenever I revive, I revive
'Cause I revive, I revive
It takes a toll on me whenever I revive, I revive, I revive

Behind the faces of the weak
You'll see the scars of time
But if you listen very hard
There's hope that makes us shine

But I will rise above the skies
And show them who we are
Behind the focus of the weak
We're strongest of them all

You will think I will go down
I will know answer till I die

'Cause I revive, I revive
It takes a toll on me whenever I revive, I revive
'Cause I revive, I revive
It takes a toll on me whenever I revive, I revive, I revive
