

## Titan's Call

[Follow The Cipher](#)

I cannot believe my eyes  
Agony is falling from the sky  
Universe, now you've turned to stone  
My memories are in my hands  
Now I'm looking down upon my lands  
Here we are, can we survive

Raise your hands into the sky, embrace the light  
Raise them higher  
You're my army of the cipher shining bright  
Titan's call

The world is gray, it looks so sad  
How did we turn this life from good to bad  
The time has come, we're ready for a change  
Come with me, let's make a stand  
Gain control of earth, lets take command  
Don't be afraid, this is our chance

Raise your hands into the sky, embrace the light  
Raise them higher  
You're my army of the cipher shining bright  
Titan's call

Raise your hands into the sky, embrace the light  
Raise them higher  
You're my army of the cipher shining bright  
Titan's call
