

# Winterfall

[Follow The Cipher](#)

Lead and fire, we will take them all

There's a storm beneath the river  
And it glows in endless shores  
It is time to go to places  
We have never been before

I am lost inside a cipher  
And the walls are closing in  
It is time to break my rival  
And it's time to break our chains

All I've lost inside me and all I have done  
It will shine and light the dark  
And the tears that blind me will carry the call  
And I fall, and I fall, and I fall

Lead and fire, we will take them all  
And the fear you hire will go down and fall  
Lead and fire, we will take them all  
The resistance we are all

Stripes of fire flows the meadows  
And the ashes marks the sky  
It is burning all our wishes  
And it's burning all our dreams

Ice and snow will form the heavens  
There's a winter coming close  
May it freeze the ones that hurt me  
I will show them Winterfall

All I've lost inside me and all I have done  
It will shine and light the dark  
And the tears that blind me will carry the call  
And I fall, and I fall, and I fall

Lead and fire, we will take them all  
And the fear you hire will go down and fall  
Lead and fire, we will take them all  
The resistance we are all

Lead and fire, we will take them all  
And the fear you hire will go down and fall  
Lead and fire, we will take them all  
Lead and fire, we will take them all
