Favourite

Fontaines D.C.

Did you know
I can claim the dreamer from the dream
Make you feel
Everything you've never even seen

Yeah, it's been
A long, a long, a long, a long, a long, long

You've been my
Favourite for a long time

Stitch and fall
The faces rearranged
You will see
Beauty give the way to something strange

Yeah, it's been
A long, a long, a long, a long, a long, long

You've been my
Favourite for a long time

Well, look who's just the newest clown
Thirty-five hours coming down
How the sun shines on new pavement
And you don't even feel it

It's a cry far from bed radios
And days spent playing football indoors
When they painted town with Thatcher
They never even wanted to know ya
Feel alone?

I can slip the sunshine to the day
Yeah
Stick your heart to everything you say
Yeah
To be gone, be gone, be gone, be gone, be gone

You've been my favourite for a long time
You've been my favourite for a long time

Favourite for a long time
Favourite for a long time
Favourite for a long time

All the pieces last forever
All the pieces last forever
All the pieces
Dara-dara-dara-dara-dara
All the pieces
Dara-da, dara-da

Did you know
Cities on return are often strange
Yeah, and now
Every time you blink, you feel it change

And it's been
A long, a long, a long, a long, long, long

You've been my
Favourite for a while

Ahh, it makes sense when you understand
The misery made me another marked man
And I'm always looking over my shoulder
And each new day, I get another year older

Shoulder bound to the frame of a door
Chewed into shape like a stone on the shore
But if there was lightning in me
You'd know who it was for

Did you know
I can claim the dreamer from the dream
Make you feel
Everything you've never even seen

Yeah, it's been
A long, a long, a long, a long, a long, long

You've been my
Favourite for a long time
You've been my
Favourite for a long time
You've been my
Favourite for a long time
You've been my
Favourite for a long time
