

On The Mend

Foo Fighters

One more day that i've survived
Another night alone
Pay no mind I'm doing fine
I'm breathing on my own

I'm here
And I'm on the mend
I'm here
And I'm on the mend my friend

Wake me when the hour arrives
Wake me with my name
See you somewhere down the line
We're teathered once again

I'm here
And I'm on the mend
I'm here
And I'm on the mend my friend

I'm here
And I'm on the mend
I'm here
And I'm on the mend my friend

Was it you?
Sat alone
Here we go

Close your eyes and stay a while
To take me where you go
Single file we walk the mile
Who's wandering back home

I'm here
And I'm on the mend
I'm here
And I'm on the mend my friend

I'm here
And I'm on the mend
I'm here
And I'm on the mend my friend

Was it you?
Sat alone
Here we go
Here we go
Here we go
Here we go
