

Ey, The Fooo, conspiracy let's go
When I hit the scene, ya'll gon' know just who I am
Swinging for the fence, girl I kill this little game
I'm your local boogie-man, I fooogreen the fame

So look there's somethin' your face if you didn't try it
I make them just run down your spot, don't you dare deny it
Spilling terror in the dark up in to the early morning
Now you see us, now you don't

I'm walking real fly with my head held high
J's on my feet and a big wide smile
Starting like a boss with a shiny black card
You never seen a young kid ballin' this hard

Walking real fly with my head held high
Jays on my feet and a big white smile
Stuntin' like a boss with a shiny black card
You never seen a young kid ballin' this hard

When we hit the set got this Fooo talks out for days
Making twisting necks like we're straight from out of space
Fare enough you block kicking haters in the face

So look this cobra in the eyes if you dare to try it
We got this posers running scared to there mommys crying
Like a shotgun with a candycove, we're a secret threat
Watch us take over the set

I'm walking real fly with my head held high
J's on my feet and a big wide smile
Starting like a boss with a shiny black card
You never seen a young kid ballin' this hard

Walking real fly with my head held high
J's on my feet and a big wide smile
Starting like a boss with a shiny black card
You never seen a young kid ballin' this hard

We're always on the run, ain't never standing still
We've ballin out so knocked it down
Ain't got no time to chill
The Foooers got are backs
Ain't nothing they won't do
And when we're on the stage you hear
They scream they love the Fooo
Because we grind so superior
Dope kids- perior, tell me if you hear me though
Blastin' through the stereo
Nothing gets up we feel so alive, music say something
The day I will die
In the fooo, we all trust put your damn heads up

I'm walking real fly with my head held high
J's on my feet and a big wide smile
Starting like a boss with a shiny black card
You never seen a young kid ballin' this hard

Walking real fly with my head held high
J's on my feet and a big wide smile
Starting like a boss with a shiny black card
You never seen a young kid ballin' this hard
