

Dumbstruck

FO&O

I can't say they stole the stars
And put them in your eyes, girl
Can't say you stopped my heart and I need CPR
Can't really say I want you for my birthday
I've already gone through every cliche

Wwatcha say when you fall in love?
Words are never enough

It's all been done
It's all been said before
I gotta look for ways to strike the perfect chord
Gotta go against the flow
Break the mold
But how am I supposed to think it up?
When I'm dumb-du dumbstuck

Baby, everything's so overdone
But I guess you really know it when
Two hearts beat as one
But if I say my love for you grows stronger with each day
Could you forgive these unspeakable cliches

Wwatcha say when you fall in love?
Words are never enough

It's all been done
It's all been said before
I gotta look for ways to strike the perfect chord
Gotta go against the flow
Break the mold
But how am I supposed to think it up?
When I'm dumb-du dumbstuck

Oh, oh, oh...

It's all been done
It's all been said before
I gotta look for ways to strike the perfect chord
Gotta go against the flow
Break the mold
But how am I supposed to think it up?
When I'm dumb-du dumbstuck

Oh, oh, oh...

Gotta go against the flow
Break the mold
But how am I supposed to think it up?
When I'm dumb-du dumbstuck
