

# Love Like This

FO&O

I wanna be highest with you  
Light me up with your fire

Hey, pretty lady  
Why are you moving like you from some other time  
So easy, so right  
And I'm so ready  
To take you somewhere you're satisfied  
So good, so alive

Oh they don't make love like this no more  
That classic touch I'm fighting for  
No they don't make love like this anymore  
Let me lift you up I'll get you there  
That magic push we're looking for  
No they don't make love like this anymore

I wanna be highest with you  
Light me up with your fire  
I wanna be highest with you  
Light me up with your fire

And I can feel it  
You and I are doing this to be right  
We're burning tonight  
And there ain't no limit  
Come and tell me what is that you like  
And you know I'll survive, yeah

Oh they don't make love like this no more  
That classic touch I'm fighting for  
No they don't make love like this anymore  
Let me lift you up I'll get you there  
That magic push we're looking for  
No they don't make love like this anymore

I wanna be highest with you  
Light me up with your fire  
I wanna be highest with you  
Light me up with your fire

Can I have some more?  
Girl let's make it classic  
Let me, let me have it  
Can I have some more?  
Baby now I'm ready  
So give me some more

I wanna be highest with you  
Light me up with your fire

Oh they don't make love like this no more  
That classic touch I'm fighting for  
No they don't make love like this anymore  
(I wanna be highest with you)  
Let me lift you up I'll get you there  
That magic push we're looking for

No they don't make love like this anymore

I wanna be highest with you  
Light me up with your fire  
I wanna be highest with you
